

THE ACWD CONNECTION

High-Efficiency Toilet Rebate Program

Did you know that toilets can account for nearly 25 percent of water usage in your home?

If you currently have 3.5 gallons per flush toilets (GPF), by switching to a premium high efficiency model, you could save an estimated 14,000 gallons or more per year.

ACWD offers rebates of up to \$100 per toilet, when replacing older 3.5 GPF toilets with a qualifying water-efficient model, using 1.06 GPF or less.

For more information on ACWD rebate programs, visit www.acwd.org/conserv or call our Water Conservation Department at (510) 668-4218.

Proud to provide a reliable supply of high quality water at a reasonable price to Fremont, Newark and Union City
