2021 New Year New Habits 2021

Start 2021 with new water conservation habits that can save water, time and money!

- In winter, water dry landscape areas by hand instead of running the entire irrigation system.
- Add mulch to your landscape. It helps to retain moisture so you don't have to water as often.
- Inspect your landscape regularly for leaks and fix broken sprinkler heads to avoid water waste.
- Decrease your shower time. Also, encourage family members to do the same for added savings.
- Collect water in the shower while waiting for the hot water. Use this water for plants and landscape.
- Purchase a rain barrel and harvest rainwater from downspouts. Check out our rain barrel rebate program.

Visit www.acwd.org/conserve for more water saving ideas and rebate information.

We wish everyone a happy and healthy new year!

Proud to provide a reliable supply of high quality water at a reasonable price to Fremont, Newark and Union City
