

Water-Efficient Landscape Rebate Program -Resources List-

Plants eligible for the Water-Efficient Landscape Rebate Program should be climate-appropriate and require little to no supplemental irrigation. Please refer to www.acwd.org/rebates for plants list that prequalify. Other Plant List Resources for finding climate appropriate plants are listed below. However, any plant selected from these lists must be reviewed by ACWD Water Conservation Staff prior to being installed.

Plant List Resources

- **Water Wise Gardening in the Bay Area**
<http://bayareagardening.org/>
- **California Native Plant Society (East Bay):**
<https://www.cnps.org/gardening/choosing-your-plants>
- **Calscape Plant Guide:**
<https://calscape.org/>
- **Plant Right Guide:**
<https://plantright.org/about-invasive-plants/better-plants/>
- **Water Use Classification of Landscape Species (WUCOLS)**- This is a very comprehensive plant list but only plants listed as low (L) or very low (VL) are eligible for ACWD's rebate.
<https://ucanr.edu/sites/WUCOLS/files/183488.pdf>
- **East Bay Municipal Utility District plant book "Plants and Landscapes for Summer-Dry Climates" with a plant list link on the same page:**
