UPDATE OF URBAN WATER MANAGEMENT PLAN

Alameda County Water District will be reviewing and updating our Urban Water Management Plan (Plan) for 2025-2030, and the Water Shortage Contingency Plan (WSCP), which are due July 1, 2026. The Plan was last updated in 2021. We encourage all of our customers to participate in this review process. We will make any proposed revisions to the Plan and WSCP available for public review and will hold a public hearing in spring 2026. In the meantime, if you would like to learn more about the current Plan, WSCP, the schedule for considering changes to these, or how to participate in the process, please contact:

Alameda County Water District
